The NewTek TriCaster TC1 Base bundle is the essential solution for modern video production. With industry-leading, software-driven live production technology; a 16-input, multi-source video workflow with out-of-the-box support for four SDI hardware inputs; and an included 1.5-stripe control panel with 14 source buttons, the NewTek TriCaster TC1 Base bundle provides everything you need to create more incredible content, make it available in more places, and reach viewers—whenever and wherever they watch.

*Actual control surface imprint may differ from above render.

All orders are subject to availability. Pricing subject to change without notice. International pricing may vary.
